

Licensing IBM SPSS Statistics on MacOs operating systems

- Step by step

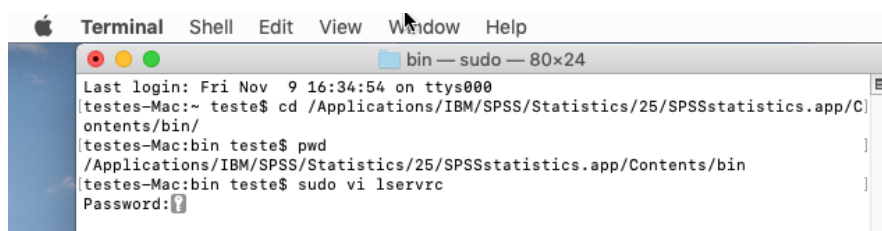

- Open New Finder Window

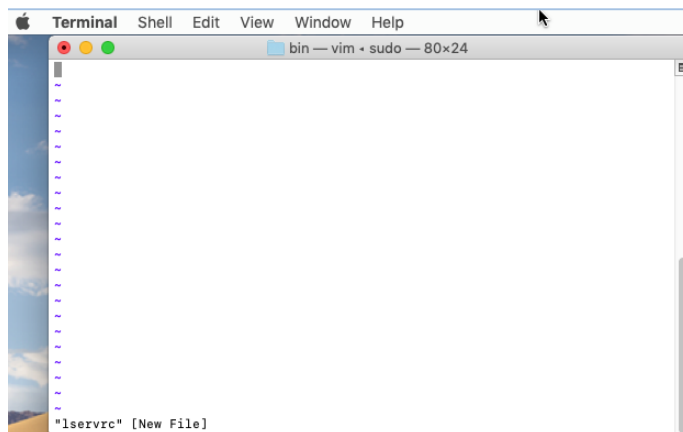

- Select in Favourites the option Applications
- Double click the Icon Utilities in the right side of the screen

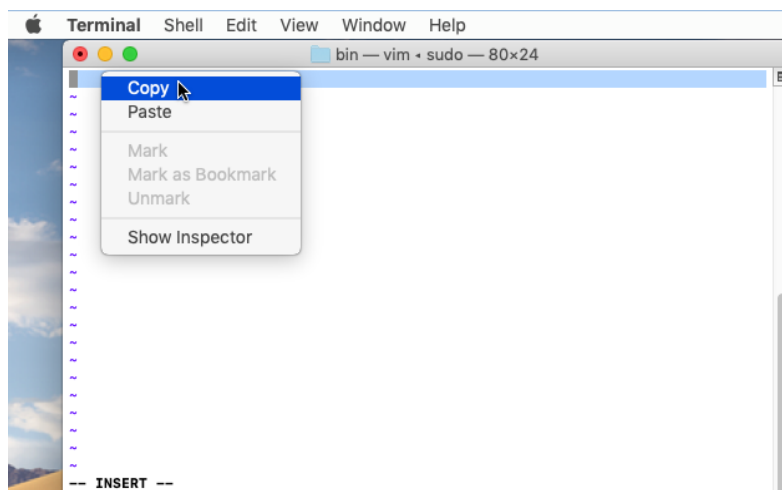

- Double click Icon Terminal
- Write the following command in the Terminal window to go to License Folder
`cd /Applications/IBM/SPSS/Statistics/25/SPSSstatistics.app/Contents/bin/`
- Write the following command in the Terminal window to confirm you're in the right folder:
`pwd`
- To create the file LSERVERC in that folder, write the following command and enter the **administrator** password
`sudo vi lserverc`

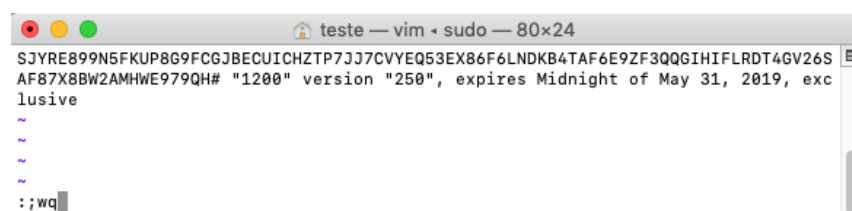

- After entering the password the following screen appears

- Click on the Terminal window and press the letter 'i' on the keyboard the enable you to add the license to the file

- Copy the license you received and select PAST option on the Terminal window by clicking on the first line with the right mouse button
- To Save the file
 - Press the ESC key to terminate edition
 - Press SHIFT key and `:` (colon) key for the cursor to reappear at the lower left corner of the screen beside a colon prompt
 - Write `;wq` and press ENTER

- Close Terminal Window
- Try opening the IBM SPSS Statistics to see if it is licensed
